

what is a word?

- white-space delimited
non-white-space characters

how are you?

```
int lastCharWasAWhiteSpace = TRUE;
ch = fgetc(src);
```

```
if (!isspace(ch) &&
```

```
    lastCharWasAWhiteSpace)
{
    wordCount++;
}
```

```
lastCharWasAWhiteSpace = isspace(ch);
```

```
#define FALSE 0
#define TRUE 1
```

```
if (isspace(ch) == TRUE)
```

```
if (isspace(ch) != FALSE)
```

```
if (isspace(ch))
```

```
printf("god", !FALSE);
```
