Have you ever wondered what is inside a computer case?

Have you ever wanted to “build” your own PC?

Would you like to upgrade your PC or install another OS but don't know where to start?

If you answered yes to any of the above then you should sign up for IT 201 Introduction to Computer Configuration and Operating System Software during the Spring 2007 semester.

For more information contact Prof. Theys (mtheys@uic.edu) or Prof. Troy (troy@uic.edu)
